# ATLANTA GIRL, 16, KILLED IN CRASH; DRIVER ARRESTED

Miss Lucille Harper Sustains Broken Neck-Ben F. Taylor, Jr., Held Without Bond.

Miss Lucile Harper, 16, of 1265 Epworth street, S. W., was fatally injured late Thursday night when the automobile in which she and two young men companions were riding was struck by a car driven by Ben F. Taylor, Jr., 26, of 912 Ponce de Leon avenue. Taylor, an Atlanta attorney, was held without bond on charges of speeding and reckless driving.

Miss Harper died 30 minutes following the accident, having been taken to a private hospital, where it was found she had received a broken neck.

The accident occurred at Spring and Marietta streets. Wilbur Mansell, driver of the car in which the girl was riding, was severely lacerated and bruised, and Allen Martin was shaken up. Both youths are residents of Sandy Springs.

According to police reports of the accident, Mansell was driving north

accident, Mansell was driving north on Spring street and the Taylor car, proceeding east on Marietta, struck it, spinning it around and throwing Miss Harper and Mansell to the street. The Taylor car skidded about 50 feet after the crash, the report stated.

Captain Grover C. Fain ordered Taylor held without bond. The police report stated that "evidently" Taylor's car was being driven at a high rate of speed.

The girl is survived by her parents, Mr. and Mrs. D. C. Harper; one sister, Miss Frances Harper, and her grandparents, Mr. and Mrs. T. Y. Brent, and Mr. and Mrs. T. Y. Brent, and Charleston, W. Va. The body was taken to the funeral home of Harry G. Poole and arrangements will in announced from there later.

merger with the old, as represented by the outgoing executive committee, the new order will take command of the state democratic convention and for the next four years at least its word

will be law. The task is described as a difficult one, and was perhaps made more so by the final act of the old committee today when by a vote of 41 to 17 it adopted a resolution calling for the dismissal of all pending contests in the comptroller general's race, and in-dorsement of Homer C. Parker as the

nominee for that post. This action came after an entire day of debate over protests filed by William B. Harrison against an amended return from Wilkinson coun-

amended return from Wilkinson county, which gave Mr. Parker a slight popular vote lead and a tie in unit votes. Attorneys for both Harrison, the incumbent, and for Parker, argued their cases before the executive and subcommittees, and it was only after an adjournment for lunch that an agreement could be reached.

But a minority report, declaring that the committee had no right to take such action, was drawn up tonight, and will doubtless again make the question the outstanding one before tomorrow's convention. Both reports will be submitted, G. Ed Maddox, chairman of the present executive committee, said, and the new delegates, most of them friends and coworkers of Mr. Russell, the gubernatorial nominee, must decide which to accept.

The minority report on the Parker-Harrison controversy, prepared by Albert Howell and signed by the 17 men and women who voted against the resolution stated in part that the committee was "without authority and without jurisdiction to exercise, contravene or limit the duty and authority conferred by the laws of Georgia and by the rules of said committee, exclusively upon the chairman and secretary of said committee to certify to said democratic convention the result of said primary election under controversy.

### **BUILDING BRIGHTENS BUSINESS OUTLOOK**

Large Increase in September Permits Heartens Leaders.

WASHINGTON, October 16 .- (P) Government financial leaders regard with interest recently compiled figures showing an increase in building permits for the United States as a whole of 6.5 per cent in September over August, the first increase in Septem-

per compared with August since 1917.
Building permits are looked upon by some fiscal experts, as among the reliable indices of business conditions. However, the encouragement over the September increase is offset partly by the fact that building permits for this September amounted to only \$125,-437,089 compared with \$173,307,852

last September.

While government officers point hopefully to the building permits figures they are still saying nothing about general business conditions.

Engine Rams Loaded

A., B. & A. Coal Train

A., B. & A. Coal Train

West End residents were given a close-up thrill late Thursday afternoon, when a switch engine of the Atlanta, Birmingham & Coast Railroad, handing empty cars toward 
West End yards, ran head-on into a 
train of loaded coal cars being backed toward Bellwood.

The collision occurred on the 
Nashville, Chattanooga & St. Louis 
belt line at the north entrance of 
the Gordon street underpass. One 
coal car of the N., C. and St. L. 
string was demolished, and the A., 
B. & C. locomotive was badly damaged. Ed Mason was engineer of the 
N., C. and St. L. locomotive, and 
J. T. Crawford was driving the 
Coast engine. Crawford and his 
negro fireman jumped a moment 
before the impact.

Mr. Coleman, one of the outstanding engineers of the country, was in Atlanta on the president's annual visit to the various state sections of the society. He arrived here from Jacksonville, Fla., and today will go to Auburn, Ala.

William E. Hansell, president of the Georgia section, was toastmaster and introduced the distinguished quest, who discussed the strides which the profession has made within the decade.

Following his address a motion pic-ture of the giant power cable across San Francisco bay was shown in con-nection with a technical discussion of the engineering problems which its installation required.

### To the Man Who Has Shot Many Animals, the Lion Is Just Another Target -Bu Robert Quillen-

Few men are born to be successful, and few men sound in mind and body are born to fail.

Chance determines the issue in many cases—perhaps in every case of phenomenal success or unmerited fallure—but the quality that brings success in the majority of cases is faith,

I know two young women who possess unusual talent. Without other encouragement or incentive than the artist's urge to express him-self, they have done good work. Yet neither of them has won or will win fame or fortune, for they have no faith in themselves and the fear

of failure makes them surrender without trying.

I know, and doubtless you know, men of very ordinary ability who have climbed far above the crowd simply because they thought they

could do it and kept pushing ahead. In thousands of instances that item of faith-call it self-confidence you wish-is the sole difference between the success and the failure Knowing that to be true doesn't benefit the failure in any way, for self-confidence isn't a quality that can be acquired late in life. If he hasn't faith in himself at 30 or 40, no effort of will or course of study can overcome his shrinking-violet complex and make him a winner.

But he can at least save his children from a fate similar to his own.

He can teach them that life is a game much like boxing, wherein one takes it on the chin and comes back for more and eventually wins by the simple expedient of out-staying the other fellow. How can the child be taught?

Well, have you ever seen, among the wee lads who sell papers on the street, one who was timid or bashful or lacking in self-confidence. Or have you seen, among the sheltered and coddled darlings of too-inxious parents, one who accepted hard knocks as part of the game and faced each new chore with the matter-of-fact faith that whatever required doing could be done?

That is the answer. Shield the boy from anything that would shame or humiliate him, but shield him from nothing else.

Let him learn by experience that he can do what he will—get the big idea in algebra, find the yellow streak in a bully, or win the right girl—simply by hanging on until the job is finished.

The faith to move mountains is the reward of those who have moved (Copyright, 1930, for The Constitution.)

Canadian Pacific Railroad President Says U. S. Will Be Importing Wheat From Canada Within Five Years - Insurance Companies Give Plenty of Thought to Farm Mortgages.

"The United States will be impor ing wheat from Canada within five years," says E. W. Beatty, president of the Canadian Pacific railroad.

From the standpoint of the American farmer this would mean higher prices for his own wheat, but Mr. Beatty's prophesy will hardly be realized within the time limit he sets.

However, if wheat prices remain low for two or three years, the inevitable drop in production will take place. This might bring about the condition which President Beatty forecasts within half a decade.

By omission of statement, rather than direct admission, Judge Pickett does not deny that federal office-holded to help provide the sinews of war for Dr. Carswell's maiden effort to go to congress. On the other hand, it is known here that the leading republicans of the state, particularly those identified with Collector Rose and Henry Davis, have decided that the time is ripe for the republicans to put up a real scrap in Georgia and they have selected the eleventh district as the battleground—this year. President's Son Will Be Brought to Asheville This Winter.

WASHINGTON, Oct. 16.—(49)—
Herbert Hoover, Jr., who is suffering with tuberculosis at the Hoover lodge in Virginia, is to be taken later in the fall to Asheville, N. C., for treatment.
Captain Joel T. Boone, the White House physician, announced today that a home on Sunset mountain overlooking Asheville had been leased by the son of the precident and he would be taken there early in November.

The site was selected over other localities believed by Dr. Boone to be climatically favorable for treatment of tuberculosis largely because of its proximity to Washington and the patient's family.

Dr. Boone said the president's son has responded well to treatment and has made satisfactory progress since he was taken to the presidential camp in the mountains of Virginia several weeks ago.

Howard Thurston, magician, will broadcast over the Columbia network at 7:30 tonight. He will explain how destiny plays a part in shaping the fate of individuals. Convinced that the individual may shape his own life to a great extent, Thurston has pre-pared a series of questions by answer-ing which listeners will receive a comprehensive chart designed for their information.

Frances Williams, stage star who won fame in George White's "Scan-dals' and with the four Marx brothers in "Coconuts," will be the guest of honor during the Radio Follies, which will be presented through the courtesy of Schneer's, 122, of Atlanta, from 9 to 9:30 tonight via the Columbia Broadcasting network and WGST.

Herman Lovelace. Apalachicola, Fla., testified in federal court here late inday that he was wounded last July by deputies of Baldwin county who stopped his car and searched it for liquor, but that he was treated by a private physician in Mobile instead of at a hospital because the deputies "feared it might hurt Sheriff Carthis Irwin, of Baldwin county, in a political campaign then underway."

The testimony was given during the \$5,000 damage suit instituted by Lovelace against Sheriff Irwin in federal court here. The case was not expected to be completed tonight.

Lovelace testified the deputies shothim during a search of his car for liquor but were "afraid to take me to a hospital for fear the newspapers would get hold of it if I was treated there."

Francois Pietri, minister for the colonies, has announced that a special committee selected by the high colonial council, which is made up of former ministers of colonies and governors, will meet this month.

Subcommittees, composed of natives for the most part, are now at work in Cochin-China, Annam, Cambodia. Tonking and Loas, five subdivisions of French Indo-China, drawing up reform proposals for the French committee's consideration.

One of their chief problems undoubtedly will be the rice tax, cause of communist, and nationalist uprisings in the Indo-China last spring which resulted in considerable loss of life and the subsequent execution of 17 native revolutionists.

donne Coste and Maurice Bellonte received the \$25.000 Easterwood prize today for their one-stop Paris-New York-Dallas flight at a luncheon of the Advertising Club.

Colonel William E. Easterwood, Jr., of Dallas, Texas, donor of the prize, presented a check for \$25.000 after a brief presentation speech.

Coste responded in an address in French, later translated, in which he told of his pleasure in the fliers' recent good will tour of the country. He mentioned particularly their stops in leveland. Detroit, San Antonio, Richmond, Va., and their reception on the earlier flight, at Dallas, Texas, which has been given world-wide pilcity by the Easterwood prize.

The check, especially made for the presentation, was printed in four colors and showed a map of the Paris-New York-Dallas route. It cost \$200. Although the check was drawn on a Dallas bank, the money had been deposited in a New York bank so that the fliers might cash it at once.

It was learned at the luncheon that yesterday the fliers were privately given a check for \$45,000, the unexpend-

# SCIENCE ROUTS DEATH!

Hundreds of thousands of lives saved by pasteurization— VIRULENT GERMS of Typhoid, Diphtheria, Scarlet Fever and Tuberculosis DESTROYED BY PASTEURIZATION at a temperature between 131° and 145° Fahrenheit.

D

AILY the proof is mounting for all the world to marvel at!

Proper pasteurization has saved hundreds of thousands of lives! Countless babies have grown to healthy maturity — countless more

are romping their joyous way toward sturdy manhood and womanhood—thanks to a simple scientific process of making milk safe!

Years ago, scientists discovered that heating milk to a temperature of 145° would DESTROY every living DISEASE GERM that got in it—and millions of germs of some of the most dangerous known diseases did get in. They called the process PASTEURIZATION.

One by one, the great cities of America experimented with it.

The proof was overwhelming. Epidemics decreased. The spectres of diphtheria, scarlet fever, typhoid, infant diarrhea, septic sore throat and tuberculosis, receded.

In city after city laws were passed making pasteurization obligatory.

Today, the U. S. Government, health organizations, and child health specialists everywhere, recommend milk pasteurization. They recognize it as the safest way to protect your children against the UNSEEN DEATH that may lurk even in very carefully produced and handled milk.

During June, July and August, in 1892, New York City's death rate among children under five years was 135.2 per thousand.

Gradually, pasteurization was instituted, finally becoming a law. In 1916 the death rate was reduced to 39.5. Approximately 241,930 children's LIVES were SAVED IN NEW YORK CITY alone between 1893 and 1916...as pasteurization increased.

Between 1907 and 1911, BOSTON suffered 4,095 EPIDEMICS of diphtheria, scarlet fever, typhoid and septic sore throat —"definitely traced to milk." By 1917, 82.5% of BOSTON'S milk supply was pasteurized. Not a single epidemic has been traced since then to properly pasteurized milk.

From 1911 to 1915 CHICAGO had nineteen milk-borne EPIDEMICS. In the first six years in which the city's milk was pasteurized, tuberculosis deaths were cut in half; scarlet fever was reduced 70%; typhoid 87½%; septic sore throat was practically eliminated.

In RICHMOND, Va., approximately 98% of the milk is pasteurized. ATLANTA, Ga., favors pasteurization of the municipal milk supply. Austin, Tex., sponsors the U.S. Public Health Service Standard Milk Ordinance, which advocates pasteurization according to the highest standards of safety.

Because milk is so easily contaminated, even the most carefully produced and handled milk is not really safe. Cows, milkers and utensils may carry germs—invisible and deadly.

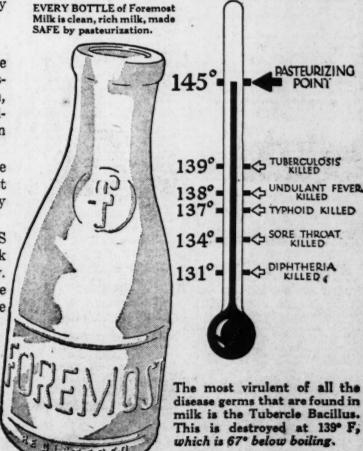

Foremost Milk is produced by HEALTHY COWS that graze in the life-giving Southern sun. The milk is accepted only after it has been tested for quality. And then this rich milk is pasteurized . . . because Foremost Dairies will take no chances with the

precious lives of children or its own integrity.

. . .

The wonderful FOOD VALUE of Foremost Milk is NOT LOST by pasteurization. The growth, strength and body-building elements, which make milk Nature's most perfect food, remain.

Your telephone order today for safe guarded, delicious-tasting Foremost Milk will bring the gleaming, freshly chilled bottles to your door tomorrow morning.

BY JOHN L. COOLEY. NEW YORK, Oct. 16 .- (P)-This was a day of reactions in the stock and commodity markets. Shares prices sagged almost steadily in the dullest trading since September 18, closing 1 to 4 points lower in a 1, 854,710-share turnover. Wheat and corn lost 1 to 2 cents and cotton was off 60 to 90 cents a bale.

The lethargic decline in stocks caused favorable comment in quarters which are hoping that the market will get plenty of time for stabilization. The shorts have lost some of their boldness in the face of the tightest loganing rates in years regardless. loaning rates in years, regardless of whether those rates are the re-sult of an organized effort to prevent indiscriminate short sales that might tend toward demoralization. On the other hand, support from covering was not so noticeable today and it was ap-parent that the larger bear operators wer willing to wait for definite signs of strength.

For two successive days the market had advanced, which was something of an accomplishment, and profit taking, therefore, was regarded as natural, although some brokerage circles had expressed a belief that the rally could carry further. Nevertheless, the realizing failed to make a very deep dent on many of the favorite shares, for good support was in evidence at the lowest levels. United States Steel rallied promptly on its frequent excursions below 150 and closed a fraction above that quotation, off 2 points net. General Electric met large offerings and lost 8 points, while Westinghouse, whose earnings statement is expected soon, dropped more than 4 before firming slightly. The net loss was 3 3-4.

Money Rates Firm.

Money Rates Firm. Bonds appeared stronger. Call money officially held at 2 per cent. but was available at 1 3-4. A lively demand for commercial paper failed

to affect rates.
The \$27,000,000 increase in standing bankers' acceptances last month in comparison with August was encouraging at first glance, since it was in line with seasonal trends, but it developed that the gain was due thiefly to credits of the Grain Stabilization Corporation on wheat held in warehouses. Export and import credits declined.

Shipment of \$5,000,000 in Argen tine gold to New York was seen as a move to support the pess. It was reported that the republic might send in considerably more, although such a movement would not be interpreted as forecasting the reopening of the Ar-gentine conversion office.

The \$153,000,000 decline in federa reserve brokers' loans, about in line reserve brokers' loans, about in line with expectations when allowance was made for the Monday holiday, brought the decrease for the past three weeks to \$470,000,000 and carried the total down to \$2.752,000,000, the lowest since early 1927. The deflation from the peak on October 2, 1929, slightly exceeds four billions.

Few Bright Spots.

A few stocks, mostly those affected by special situations, showed inde-pendent strength, especially Gillette, which rallied more than 7 points on announcement of the Autostrop mergannouncement of the Autostrop merger plans. The closing price was 5
net higher. Consolidated Film ran up
a couple of points, stimulated by newsthat an important contract had been
closed. Warner Brothers Pictures
gained more than 3 and Paramount
and Loew's held firm. Fox Film
sagged. Southern railway rallied 3
on covering prompted by assurances
that the dividend would be maintained.

On the downside, there were losses of between 2 and 3 in American Tele-phone, American Can, Sears-Roebuck. phone, American Can, Sears-Roebuck, New York Central and Consolidated Gas. Bethlehem Steel. Standard of New Jersey, Baltimore & Ohio, Woolworth and Vanadium dipped about a point, Colorado Fuel & Iron broke to a new low on publication of a bearish earnings forecast. Eastman Kodak also lost 4. General Motors was freely sold but halved its extreme decline of 1 point.

Losses in wheat amounted to a cent and a half. Canadian pool selling and large western and Argentine exports were factors in the market. Corn dropped 2 cents on increased country efferings and liquidation.

Foreign exchanges were firm to strong, featured by advances in ster-ling and the French franc. The Span-ish peseta also improved.

CHICAGO GRAIN AND PROVISIONS. NEW YORK, Oct. 16.—(NANA)—
Rumors that one of the biggest automobile plants in the country would be closed down in the near future and further liquidation was responsible for a lower stock market today. The action of the market in declining was a big disappointment to the Street, which had gone home optimistic the previous night.

In connection with the selling of some of the good seasoned stocks, particularly General Motors and General Electric, reports were current that some large individual accounts were being liquidated.

The big professional bears continue passive and are maintaining their outstanding short lines, notwithstanding the many steps being taken to make short selling more difficult. Many how some are calling in lines of stock loaned to professional shorts. It was reported that one large commission house had recalled \$7,000,000 worth of stocks that it had loaned to shorts.

NEW YORK, Oct. 16.—Raw sugar was quieter today, and prices were unchanged at 3.33 for spots, duty paid. The only sales confirmed was 35,000 bags of Cuban for prompt, shipment to am operator at 3.33 duty paid, with refiners showing no interest. Early firmness in raw futures was followed by reactions under increased realizing or liquidition and selling by trade interests. against purchases in the spot market. The early strength, which carried active positions at to a points above the previous close, was due to covering and buying by, houses with Cuban commettee's plan for the stabilisation of sugar will eventually be carried out.

Offerings increased on the upturn and when the demand was satisfied prices weak-ened and at one time were 1 to 3 points below the previous close. This selling may have been promoted by the more liberal offerings in the spot market, but toward the close there was a partial recurrey on renewed haying, with the market finally I point higher on January, but unchanged to 2 points are tower for lair delivertes. Approximate sales 55,030 tons. No. 2 contracts were unchanged at 2.29 for December, with no sales. Closing prices for No. 1: December 1.33; July 1.60; September 1.66.

A minister, living in a community not served by the Associated System, questions the correctness of statements in regard to cheapness of electricity in an advertisement of the Associated System. The following letter was written in answer:

DEAR SIR!

I have read with keen interest your letter of September 11th, and wish to thank you for it. We are interested in knowing what people think, whether they represent a majority or minority. We need and welcome things to make us think, and when people have doubts or criticisms regarding our Company or our business, we are glad to

have them say so frankly and intelligently. We do not believe the public utilities of this country have much to apologize for. It cannot be denied that some mistakes have been made. In a business so vast it cannot be expected that every company and every individual will act wisely in every instance; but we believe that the utilities have done a huge task and that they have done it well.

Criticisms of their actions seem for the most part to emanate initially from those who seek thereby to gain political or some other ulterior advantage.

By telling only half of the story, apparent justification for such criticism is circulated; and it is a problem which gives us much concern how to offset such distorted statements by bringing to the mass of honest citizens the complete facts, so that they may realize the problems which the utilities are obliged to solve in making available to the millions of users the service which will best promote their convenience and comfort.

You mention the "great expenditure in improvements and increasing rate-base investments." This is a matter of the gravest concern to public utility executives. I may assure you that they do not pour money (and it has to be literally poured) into improvements and additional facilities without the most careful consideration, and without being convinced that it is either necessary in order to deliver the constantly increasing volume of high quality service which the consumers require or that the resultant economies will justify the expenditure.

The increasing ratio between dollars invested and dollars of annual revenue is something which we would like to avoid, but it seems to be inherent in the wider extension of service and in the modern development of the art which makes the construction of large new power plants and the building of great transmission networks more efficient than the small and isolated systems of the past. The ratio is also influenced by the decreasing prices at which the service is sold.

This brings me to your comment about "The steady increase in the bills which we have to pay and in shiftings

in the rates which make larger fixed service charges and lower big-user rates." I do not know what your experience has been, but the general statistics indicate clearly that the average rates are decreasing, not only for the business as a whole, but to the residential customer class as well.

The number of rate increases made in recent years is negligible, and the reductions have been numerous. Of course the consumers are finding increased uses for electricity, and with increased consumption it is to be expected that the bills will somewhat increase, although it is noteworthy that the cost per customer has increased little, if any, notwithstanding the considerable increase in use.

We know of few, if any, increases in "fixed service charges." The establishment of rates with fixed service charges is the result of careful study and a sincere (and we believe successful) attempt to make it possible for the ordinary consumer to use increased quantities of electricity to his great advantage at a favorable price. By making the fixed charges to compensate the company for the fixed expenses which it is obliged to incur, the additional energy may be sold at a low rate per kilowatt hour so that the consumer may increase his use as much as he has need for on an extremely reasonable basis.

As far as the Associated System is concerned, and we believe quite generally among other groups, the establishment of rates of this type has been carried out in such manner as not to increase the bills of anyone, but to decrease the bills of many and to make possible increased use at a very low rate. I enclose a small \*pamphlet which deals with this subject and which I hope you will find of interest.

I do not think we are under any misapprehension as to our function or as to our duties. We realize that we must deserve the business if we are to retain it. We know that we must give the consumers the kind of service which they want and at prices which are fair and reasonable or we cannot hope to continue.

We know also that we must pay taxes (which municipally owned plants do not), that we must meet our operating expenses, and that we must pay the investors in our securities a fair rate of return or they will not continue to provide the money necessary for carrying on the con-

stantly expanding functions for which we are responsible. I hope that you may find this letter half as interesting and helpful as yours has been to me, and I can assure you that frank and honest words of either criticism or praise will always be welcome.

NEW YORK, Oct. 16.—(49)—Arrangements by the Bank of the Nation of Argentina to ship \$5,000,000 in gold to the Central Hanover Bank

in gold to the Central Hanover Bank & Trust company on the steamer Eastern Prince October 24 were announced today.

Wall Street looked upon the consigument as probably the first of a series of shipments of gold to New York to support the peso and believed it likely that from \$15,000,000 to \$20,000,000 will be shipped to the United States before the end of the year.

Sit likely that from \$15,000,000 to \$20,000,000 will be shipped to the United States before the end of the year.

With the exception of \$250,000 received the first week in February and \$575,000 this week there has been no movement of gold from Argentina to New York since the government consets. sorto,000 this week there has been no movement of gold from Argentina to New York since the government conversion office was closed December 18 last by former President Irigoyen. Those shipments were believed to represent metal sent by banks from their private holdings and were not withdrawals from the conversion office. The projected movement. Wall Street bankers feel, probably will not mark the reopening of the conversion office. The shipments will be in the form of special transactions authorized by the government.

The Argentine peso recently has sagged to new low levels. Monday it broke \$0.0144 to \$0.3235, more than 10 cents below its par of \$0.4245. Influenced by prospects of government support, the rate has recovered to \$0.3384.

'Her Man' Opens Run

"Her Man," feature picture which has been the center of considerable controversy and which the national magazines have be need as one of he cleverest and most exciting things et produced for the sound screen, opens a week's run at the Capitol theater this morning. This is under the new policy of that house by which its new programs are first shown on Fridays, instead of Mondays.

The story of "Her Man," is based upon the old song, "Frankie and Johnnie," and it concerns the fight for rodemption of a girl who is first found inhabiting a dive in Havana. It is this feature of the picture which has been criticised, Cuban officials declaring that there are no places to be found in Havana which correspond to the scenes of the rim.

The picture is notable for the most realistic fight ever staged for the screen. The participants are Ricardo Cortez and Phillips Holmes, who play

### Waycross Georgians Will Meet Today.

Mrs. John W. Lawrence, of Pittsburgh, Pa., arrives in Atlanta today to be guest of Mr. and Mrs. Robert L. Cooney at their home on Ponce de Leon avenue. The visits of Mrs. Lawrence here are of interest to society, as she has a circle of admirers made upon former visits to her Atlanta hosts. As the former Miss Mary Flynn, she was Mr. and Mrs. Cooney's guest before her marriage to Mr. Lawrence, and was feted at a round of social affairs. She has often been here since entering the ranks of the married set, and was royally entertained upon those occasions.

Mrs. Lawrence will be numbered WAYCROSS, Ga., Oct. 16.—Waycross Georgians meet tomorrow at the home of Mrs. J. E. ### Miss Doris Phillips Weds Mr. Hodgdon.

The house committee of Wesley Memorial hospital, of which Mrs. John C. Staton is chairman, sponsors the sixth annual benefit musicale to be given at Gleuridge, palatial residence of Mr. and Mrs. Thomas K. Glenn, Friday, October 24, at 3 o'clock. These musicales have grown in interest and popularity yearly, due to the increased interest of Atlanta women in the charity work of the hospital.

Dr. Malcolm Dewey, director of the Emory Glee Club, has charge of the musical program, and the ability and reputation of Dr. Dewey combine to make this event one of the best programs ever presented.

The vital interest of Mr. and Mrs. Glenn in Wesley Memorial is shown by their magnanimity in offering their home for this occasion. Mr. Glenn is a trustee of the hospital, and his father, the late Rev. Wilbur Fiske Glenn, was a Methodist divine deeply interested in the hospital.

### When Personal Freedom Ceases

When automobiles first were introduced they gave us all a delightful sense of personal freedom. We could go where we pleased, when we pleased and how we pleased.

They still give this service, but NOT in cities where heavy traffic has made the motor car a burden, a responsibility and a care.

Regulations increase. Parking space becomes harder and harder to find. Traffic itself becomes more and more difficult to negotiate.

So, while the small town woman finds the automobile useful and pleasant as a vehicle for shopping trips and other activities, the women in the large cities are rapidly abandoning the motor car in favor of the street car.

For the street car actually gives you

more personal freedom in a town as big as Atlanta. It passes directly by places you want to go. But you usually must pass your destination and walk back several blocks if you bring an automobile downtown. It is the rare exception to find parking space within a short walk of the stores or the theaters.

So thousands of Atlantians - among them those who best can afford to drive motor cars - ride the street car instead, because it is the logical, practical and best transportation in the downtown sec-

If you have been driving your auto downtown, largely out of habit, try a sample" street car ride - and you'll join this great group of people who save the auto for pleasure, and use the street car for shopping trips.

### Southeast Council Of Women's Clubs Meets in Nashville

NASHVILLE, Tenn.. Oct. 16.—(P)
Tracing the growth of the General
Federation of Women's Clubs, Mrs.
John Sippel, of Baltimore, the president, told the southeastern council of the federation tonight that the "general federation has always played in tune with the times and the thing needed is the thing we have done."

In 1890 Mrs. Sippel said, there were 68 clubs and 4,000 members as against 14,600 clubs in the United States and 72 in 18 foreign countries today with the membership of millions. She pointed out that the general federation "has never gone forward in a spectacular manner, but has ward in a spectacular manner, but has

grown steadily."
The first slogan, Mrs. Sippel said, was "union and diversity." Then the federation adopted "a group of orfederation adopted "a group of or-ganized women in every community who can be depended upon to pro-mote all movements looking toward betterment of life" as a slogan, and now the federation's aims are set forth in "our common goal is toward enrichment of life through a better adjustment of human relations."

"this trusted tonic bleach both restores and keeps the skin exquisitely white, petal-smooth-lovely."

XPERT beauty advisers in the famous stores over the country tell us that Nadinola Bleaching Cream has proven marvelously successful, time after time, in making the skin alluringly white, satin-smooth—beautiful. The white satin-smooth—beautiful. The thousands of beauty-wise women who have used it have forgotten what it is to have sallow, washedout, freckled, uninviting skin.

Just before you retire tonight, smooth over your skin a little of this rich, fragrant cream. Instantly you feel its tonic effect as your sluggish skin tissues are roused to action. It brings whiteness and velvety-amoothness up from underneath the darkened, weather-muchant sur-

face. You see your skin growing whiter, smoother, more lovely—all trace of tan, freckles, muddy sallow-color faded out. Even pimples, roughness and redness gently cleared away. Nadinola Bleaching Cream works mildly and gently, yet quickly and surely. So gentle is its action it cannot harm even the most delicate skin. Written, money-back guarantee, together with simple directions, in every package. Begin using Nadinola tonight—at all toilet counters, 50c; extra large economy size, \$1. "Yes, yes," said Melchett encourto you, Mrs. Price Ridley," I said.
"Colonel Melchett is our chief constable."

Mrs. Price Ridley looked at me coldly, but produced the semblance of a gracious smile for the colonel.

Mrs. Price Ridley thawed altogether.
"Ah!" she said. "I'm glad some notice is being taken of the occurrence. Disgraceful, I call it. Simply disgraceful."

There is no doubt that murder is disgraceful. It is not the word I should use to describe it myself. It surprised Melchett, too, I could see. "Have you any light to throw upon the matter?" he asked.

"That's your business. It's the business of the police."

Ridley, said the chief constable.

"But the man here hadn't even heard of it till I told him about it: cried the lady.

We all looked at the constable.

"Lady been rung up on the telephone," he said. "Annoyed, Matter of obscene larguage, I understand."

"O! I see." The colonel's brow cleared. "We've been talking at cross purposes. You came down here to make a complaint, did you?" Melchett is a wise man. He knows that when it is a question of an irate middle-aged lady, there is only one thing to be done—to listen to her. When she has said all that she wants to say, there is a chance that she will listen to you.

Mrs. Price Ridley surged into speech. "Such disgraceful occurences ought to be prevented. They ought not to occur. To be rung up in one's own house and insulted—yes, insulted. I'm not accustomed to such things happening. Ever since the war there has been a loosening of moral fiber. Nobedy minds what they say, and ast to the clothes they wear—"

### **DEFINITE PROGRAM GIVEN AS STATE NEED**

Howard Coffin Says Georgia Should Have 5-Year Construction Plan.

"Georgia's greatest need today," said Howard E. Coffin, of Sapelo, today, "is a constructive program of not less than five years' duration with definite aims and unremitting energy to build up the state. Increase in population should be the main objective."

"I believe the present time is the best opportunity Georgia has had in ypars. I hope the men and women who are willing to devote their energy and intellect and who are capable and patriotic, will step into—the breach, influence the general public, outline a definite program for advancement, and push Georgia to the front."

vancement, and push Georgia to the front."

"It is an apparent necessity," he said, "that Georgia as a whole and the Georgia newspapers as formative influences of public opinion, realize the importance to the state of a constructive five-year program leading to the development of the tourist business. There is need of the government of Georgia heading a definite program to this end. Heretofore, we have just drifted along."

"The situation as I see it makes it impossible to reduce greatly the

"The situation as I see it makes it impossible to reduce greatly the cost of government. We may shift taxation from one quarter to another but the cost of government is going to rise, and rise steadily. With better roads, better schools, betterments of all kinds arising and becoming efof all kinds arising and becoming ef-fective, there must be an increase in the cost of operating the state. The only solution I see that is an immediate one to increase our population.
This means an increase in business and an increase in progress.
There must be a well-planned, orderly and continued effort in Georgia

# CONFERENCE LEADERS FACE TURNING POINT

It was only with the greatest difficulty that Wayward Boye, one of the chief "I" witnesses of the Yale-Georgia game last Saturday was pried loose from his notes on that game and put to work on the business in hand for the current week.

Wayward had some reason to be sore at being forced into the future tense again,

Wayward has not written a line about what Albie Booth told Fay Vincent, Yale's captain and right tackle when the captain ordered him not to call a certain play.

Wayward has never crashed into print with the full text of Coach Harry Mehre's pep talk to the Georgia players just before the kick-off:

"You're just a \$1 game, boys; go out there and play \$3 worth of football."

Then there were the details of the great defensive set planned by Rex Enright, North Carolina assistant coach, for the Tarheels to use in the Georgia game Saturday: 9-2-3.

All those items now will be lost to the public. And still Wayward was just getting warmed up to the Yale game when I dragged him into the observatory to look at the

Saturday football bill. Wayward is due to get his first resounding thrashing of the season Saturday and if he wins more than half the selections

he can be arrested for peeping. On such games as Alabama-Tennessee, Carnegie-Notre

Tech High Finally "Finds" Aerial Game. Many Men Used.

By Roy White.

Using a forward passing attack with effectiveness, Tech High defeated University school. 28 to 0, Thursday afternoon at Spiller field in a well-played game. It was the first time in three games that the Smithies had been able to use forward passes to any advantage.

Both teams started slowly.

After a few minutes Tech High found itself unable to gain through the University line, and Hammond threw a 12-yard pass to Street who sprinted 28 yards to a touchdow. It was the only real gain made during the first pagiod.

BLUEBIRDS PASS.

University staged a passing attack in the third quarter that netted three first downs, but they were held when within scoring distance. Tech High took the ball on downs late in the quarter on University's 40-yard line and began another touchdown march. Hammond, Street and B. Hadley took turn about and made two first downs before the quarter ended. In the fourth Street add-

and began another touchdown march.

Hammond, Street and B. Hadley took turn about and made two first downs before the quarter ended. In the fourth Street added 12 for another first down.

Hammond followed with 11 more yards, but lost the ball on the 12-yard line. University punted to its own 37-yard line.

Hammond and Street added 12 yards and a 15-yard penalty gave the Smithies the ball on the 7-yard line.

Hammond bucked it across. Tech High's final score came late in the game when Boyd ran 25 yards around. University's left end forfa touchdown.

MANY MEN USED.

Coach Tolbert used practically every player in uniform and the team showed an improvement over its play against the Madison Aggies last week. Tech High ran up a total of 15 first downs to 4 for University.

For the losers the playing of Jackson, Grogan and McKinley in the backfield, and Collins, Morgan and Knowlton in the line was outstanding.

In addition to announcing that the Crackers would work with a major league club in 1930, the Cracker official said that there was a slight chance that Luke Appling, the apple of your eye and shortstop with the Crackers last season, might return.

Appling pleased the White Sox mightily in his debut the last few days of the season but indications were that he needed more seasoning.

Defensively Weaker Than Bulldogs, Carolina Line Must Play "Over Its Head."

Georgia continues to remain at least a two-touchdown favorite over North Carolina's Tarheels in the game scheduled for Athens on Saturday

North Carolina got over the winning touchdown on Johnny Branch's amazing run in the final quarter, one of those weaving runs of destiny.

North Carolina is as much fagged as Georgia, if, indeed, either is at all fagged.

The mental condition, if any, of the two teams being equal, Georgia would still be a live favorite. A mechanical Georgia eleven was able to overturn a mechanical Tarheel eleven last fall, Georgia had defeated Yale on the Saturday before, North Carolina had tumbled Tech.

Georgia is practically sure to go into the game this next Saturday a mechanical football team. It will then be possible for the Tarheels to approach something like even terms by throwing a team onto the field that is inspired and keyed up to a point where dying for dear old North Carolina seems the thing to do.

where dying for carolina seems the thing to uo.

The Tarheels have a scoring unit that is very likely as good as the one Georgia can offer. Strud Nash, Jim Magner, Rip Slusser and Johnny Branch are good backs who have worked as a unit long enough to really be one force.

In Tuscaloosa, Alabama meets Tennessee in a battle that has every element necessary to the production of a dime novel thriller. The Crimson Tide and the Volunteers have tuned up for the game by murdering weak opponents in three early duels. They, too, were rated high in the list of probable champions and it is the first time either has faced the issues with a doubt of victory in the air. One of them will pitch headlong out of the race.

The other Conference leaders seem safe enough for the week-end. Clemson, Kentucky and Vanderbilt are undefeated and have opponents this time not calculated to frighten them. Florida is playing at Chicago and is favored to win; but win or lose the 'Gator's conference rating will not be affected.

GREENIES "RESTING." Tulane, champion last season, was given a good chance to be elected for another term, but so far Tulane has been playing at various points of the compass beyond the borders of the Conference. This week-end, Tulane runs signals against Birmingham-Southern in preparation for the Conference opening, October 28, against Tech in Atlanta. Nothing can happen to Tulane.

Tech in Atlanta. Nothing can happen to Tulane.

Georgia's Bulldogs have been given a decisive edge over North Carolina in Athens in the popular mind. Both teams had hard games last week and both won after a struggle. Georgia scored late to defeat Yale, 18 to 14, and the Tarheels made a last-minute dash to beat Maryland, 28 to 21. Such games leave boys gasping, but often the boys recover very quickly when they have been on the winning end of the rally. The Tarheel rush line has shown no great cohesion while Georgia seems to have the better balanced organization. In addition, Georgia had a bunch of spare backfield men at Yale—Moran, Key, Waugh, Davidson, Sullivan—who saw no action at all. These boys will be rearing to step Saturday.

By Navy Gridders

ATHENS, Ga., Oct. 16.—Getting into their stride for the first time this week, the first string Bulldog varity set the pace for the others as Harry Mehre sent his men through a three-hour workout in preparation for the Tarheels Saturday.

After their weak exhibition of yesterday, the varsity took the field today and showed their heels to the Red Devil and freshmaa teams that were

Devil and freshman teams that were pitted against them.

Two varsity teams thoroughly subdued the Red Devil eleven that yesterday scored four touchdowns on them. The only long run made by the Reds today came when Charley Howard, freshman quarterback, caught a pass from Ed Hamilton and ran through the Bulldog defense. Outside of Howard's run the Reds were unable to gain appreciably. Although the big boys stayed on defense for more than an hour today.

When the regulars took the ball away from the Reds and trained their heavy guns on the freshman eleven, the roting really began. The yearlings were unable to hold the hard-driving Bulldogs and touchdown after touchdown was scored before nightfall forced Harry Mehre to call a halt to the day's work.

### Tarheels Spend Day As Riverside Guests

GAINESVILLE, Gs., Oct. 16.—Extensive preparations are being made by officials at Riverside Military Academy to care for coaches and members of the University of North Carolina football team Friday. The team will arrive in Gainesville at 9 o'clock and spend the day and night as guests of Riverside. North Carolina plays Georgia Saturday in Athens.

The visitors have been invited to use the athletic fields, the

gymnasium and the swimming pool in putting finishing touches

on the week's practice.

North Carolina will go to Athens at 9:30 o'clock Saturday morning on a special train, and 100 cadets from Riverside have been invited by the University of Georgia athletic officials to

usher the crowd at the game.

The North Carolina coaches accepted the Riverside invitation in order to avoid the crowds and excitement that will be
prevalent in Athens throughout Friday and Saturday morning before game time.

Riverside cadets handled the ushering at the Yale-Georgia game last fall in Athens and received many congratulations on the efficient manner in which the crowd was seated and taken care of generally. Four members of the Riverside faculty will accompany the students to the Saturday game.

# Auburn Strengthened for Tech Game as Star End Returns

### **REGULAR OF 1929** MAKES UP WORK AND WILL PLAY

McRae Expected To Prove Real Aid in Game Saturday.

AUBURN. Ala., Oct. 16.—Louis McRee, regular varsity end last season, who has been ineligible this year because of scholastic difficulties, is expected to make up the deficiency this week and be eligible for the hard game facing the Auburn Tigers Saturday with Georgia Tech in Atlanta. When McRee was declared ineligible at least until October 18, the Plainsmen had only five ends in camp. This is a small number for a Southern conference team to go through the year with, but the Auburn mentors have weathered the storm. The playing of the flankmen this season has been one of the bright spots in the showing of Chet Wynne's promising team.

Porter Grant, George Egge, Sam Mason, Cary Senn and Carl Creel are the flankmen who have carried the burden and have shown up well considering their inexperience. Creel is the only senior.

Knee Still Worries Tech Captain; Doug Graydon Definitely Out.

### By Ralph McGill.

Captain Earl Dunlap returned to practice at Georgia Tech Thursday afternoon following his resignation from the Knee Kap Klan. His showing was not entirely en-couraging. The Jacket captain ran at halfback during the signal and dummy scrimmage drills, but his knee was obviously slowing him down. He will be used again this afternoon and on his showing today will depend his status on Saturday.

It is extremely unlikely that he will start. In the event he is not in the lineup, Pat Barron and Jap Hart will be the fallbacks with Sam Colin at quarterback and "Sugar" Cain

THE HARDEST GAME.

NEW YORK, Oct. 16.—The Yale-Georgia game last Saturday was the hardest early October battle 1 ever saw. It, was one of the hardest the entire season will see. What about this impending Saturday? Which will be the hardest game, the closest fought?

As many strong teams are meeting Saturday as any one day can show through the closing drift of a waning November after-

Notre Dame and Carnegie Tech; Pittsburgh and Syracuse; Harvard and Army; Tennessee and Alabama; Yale and Brown; Princeton and Cornell; Illinois and Northwestern; Georgia and North Carolina; Pennsylvania and Wisconsin; Colgate and Michigan State; Temple and W. & J.; Dartmouth and Columbia; Holy Cross and Fordham; Kansas and Kansas

And this is only a partial list. Most of these contests will be a matter of smashing pressure on either side and they will finally get down to the matter of reserve strength. There is no longer any October loafing. If one had to make a guess, the turmoil between Carnegie Tech and Notre Dame, two of the most powerful outfits in the land, would be close to the top. As strong as Notre Dame is, it would be no upset, no surprise to see Carnegie Tech win. The speed, the power and the deception are there. It may be a matter of Wally Steffen's reserve strength. There is no question of Notre Dame's strength along this lin is there in enlarged quantities. But tomorrow Dr. Rockne may ne

ready to take her rap at an ancient rival.

Either of these teams may finish as one of the outstanding leaders in the east, so Saturday's answer will be important.

What about Harvard and the Army? Both have had some unlucky injuries, so they run about even in this respect.

Harvard's potential possibilities are better known. It will be interesting to see what the Army has been able to do with Cagle and Murrell missing. Cagle especially. There are those who helians that Fields Later. missing—Cagle especially. ### A REAL BATTLE.

AST fall Colgate lost her only game to a midwest team, the same being Wisconsin. Now Colgate is ready for Michigan State, the team that held Michigan to a 0-0 draw. And there are indications that Colgate will have another big, fast team that will go quite a distance. Here again there will be a test battle that will tell at least part of the story.

# EASTERN GRID

Harvard, Army, Penn, Cornell Play Worthy Foes Saturday.

NEW YORK. Oct. 16.—(UN)—
Something of a definite lin. on the strength of the so-called major eastern college football teams will be suppiled in this week's contests.

One of the most important tests will take place at Cambridge, Mass, where the Army will play ilarvard.

Neither Harvard nor the Army has played a worthy foe thus far, both having been content to skid over three of the maller teams. Harvard has been bothered with a casualty list, and if this situation clears up by Suturday may be able to take over the West Pointers, something the Crimson could not do last year when they played a 20-20 tie. Fields and Letzelter may, however, prove to have too much power on attack for Harvard to overcome.

Another promising eastern team facing its first severe opposition is Pennsylvania, which goes westward to play Wisconsin at Madison. Penn appeared to have a masterful team in downing Virginia, 40 to 6, last week, while Wisconsin won from Chicago by the surprisingly large score of 34 to 0.

The Syracuse-Pitt game, too, involves two teams which to date have had only medium-sized opposition.

Not only will it be ready, but it can really run. Georgia has more manpower, speed and deception in the backfield than any football team in the conferbouse and there he began to poke his inquisitive nose into every nook and inquisitive nose into every nook and is different. He gets excited and loses his head. I taught him a lesson once. If he hasn't forgotten that les-

inquisitive nose into every nook and corner. He found a cellar window open. It was open only a crack, but when he pushed against it, it opened further. Jimmy's nose told him that there were good things in that cellar. He wanted to go right in there and

came to a little doorway. It was a round doorway; it was a new doorway. Jimmy was certain that it ad not been there the last time he had visited farmer Brown's house. He was right about this, It hadn't been there. As a matter of fact, it had been made only the day before. It was a doorway for Black Pussy the Cat, that she might go in and out of the shed when she pleased. Jimmy stopped and examined that doorway. He poked his nose inside and sniffed. Then Jimmy Skunk grinned. Yes, for after that first good sniff Jimmy Skunk grinned. CHEVROLET passenger cars and trucks.

Caesar's soldiers completely surrounded the building, but they were slow in entering and Favonia was entirely hidden when the legionaries entered from the garden, the avenue and the roof, torchbearers lighting their way. "Where is the girl?" the officer demanded. "Caesar has ordered us to bring Favonia to the palace and kill her abductors."

"Here is our answer to Caesar!" cried von Harben, and with his sword he fell upon the officer in the doorway, while Gabuls and Mallius Lepus, spurred by a similar determination to sell their lives dearly, rushed those who were descending the ladder and entering by the kitchen door. Taken by surprise, the soldiers fell back.

The officer, who managed to elude von Harben's thrust, escaped from the building and summoned a number of legionaries who were armed with pikes, "There are three men in that room," he said, "and a woman. Kill the men, but be sure the woman is not harmed." In the avenue he saw people running and shouting. He heard the thud of maching feet. REAL ESTATE FOR RENT | REAL ESTATE FOR RENT

### BROTHERS SUSPECTED OF MURDERING GIRLS YEAR'S FIRST BLIZZARD

NEW MARTINSVILLE, W. Va., Oct. 16. — (UP) — Two brothers, suspected of wholesale murders of young girls lured to their Ohio river island home through newspaper advertisements, were under heavy guard in the New Martinsville jail tonight as threats of mob violence were made for the second time today.

They are Charles Henry, 54, and Ray Henry, 29, who live in a shack on Grandview Island near here. They on Grandview Island near here. They were arrested on charges of murdering Garland Bailes, 3. Clyde McBee, James Dunn and Mrs. Eva Bailes Bailey, mother of the slain child, also have been charged with a part in the

Mrs. Bailey was implicated in the confession given police by the Henry brothers, it is said. She in turn made the charge that the brothers have for years been luring girls to their shack on the island.

Sheriff William C. Baker, in search of the Henry shack, found several trunks filled with feminine wearing apparel and a large number of letters written by girls. He said that all of the

dresses, underwear and shoes he found had been used, precluding the possibility of their having been stolen. The clothing represented sizes for ten different girls, the sheriff said.

NEW ORLEANS, Oct. 16 .- (A)-Private interest barge service from Cincinnati to New Orleans became a reality today, when the initial tow of Mississippi Valley Barge Line Commississippi Valley Barge Line Company, 600 feet long and propelled by the steamer, Ohio, arrived here and was welcomed by port interests and the shrieks of harbor whistles.

The tow covered the 1,500 miles from Cincinnati in ten days, in spite of shallow stretches of the channel and stop overs at several cities on the RIVER CAMP ESCAPE

way. For the time being, officials of the

For the time being, officials of the barge line said, only express service between Cincinnati and New Orleans will be operated. Service between intermediate points will be established later. It is proposed to maintain a six or seven day service between New Orleans and Cincinnati.

"Just as soon as our initial operation proves profitable," L. Wade Childress, of St. Louis, president of the conpany, said, after the tow's arrival, "we will afford direct service to other cities along our route, such as Vicksburg, Memphis and Louisville. It is probable that direct service will be afforded some of these cities by the first of the year." One white youth will be tried in recorder's court this morning on charges of attempted larcency of an automobile and carrying concealed weapon, while a second will be returned to the River chaingang camp from which he is said to have escaped Tuesday afternoon. Today's action will be the result of arrests made early Thursday morning as the pair are alleged to have been attempting to break glass to have been attempting to break glass from the doors of several automobiles parked on West Peachtree street near and the firing of several shots on the part of Patrolmen S.
